or undergoing training as a carpenter and joiner. It covers the units: basic skills; setting out for joinery; marking out for joinery; manufacture of joinery products; woodworking machines; and maintenance

Over the last decade as the importance of vocational qualifications has been firmly established, the system has become increasingly complex and hard to grasp. Now in its sixth edition, this popular and accessible reference book provides up-to-date information on over 3500 vocational qualifications in the UK. Divided into five parts, the first clarifies the role of the accrediting and major awarding bodies and explains the main types of vocational qualifications available. A directory then lists over 3500 vocational qualifications, classified by professional and career area, giving details of type of qualification, title, level, awarding body and, where possible,

# Download Free Carpentry Joinery Nvq Level 2

the course code and content. The third section comprises a glossary of acronyms used, together with a comprehensive list of awarding bodies, industry lead bodies, professional institutes and associations, with their contact details. Section four is a directory of colleges offering vocational qualifications in the UK, arranged alphabetically by area. Finally, section five is an index of all qualifications, listed alphabetically by title.

Help realise your learners' ambitions of becoming a specialist site carpenter or joiner in the construction industry with this comprehensive new textbook published in association with City & Guilds for the Level 3 6706, 7906 and new Apprenticeship standard. This brand new title will help students: - Study with confidence, using the most up-to-date information available for the new specifications and industry
