Jonas isn't the kind of guy to submit to the expectations of others, even when his life is on the line. So when he wakes up in the cell of a dungeon with torture devices hanging on the wall, he can only think one thing: this should be fun. What he didn't expect, however, is the beautiful but broken female pitting herself against his resolve. For once, the pain of his past is shallow in comparison to another, and he wants nothing more than to extinguish her pain. When Sasha realizes one of her own has been taken, the gloves come off. Using her ever-expanding resources of both human and non-human magic workers, she sets out to battle the most advanced, most experienced magic worker in the world. Regardless of being completely outmatched, Sasha and Stefan rush to Jonas' aid.

I'd always been different. I saw objects in the night where others saw emptiness. Large, human shaped shadows, fierce yet beautiful, melting into the darkness. I collected secrets like other women collected bells; afraid to fully trust lest my oddities be exposed. Until I saw him. He'd been gliding down the street, unshakable confidence in every step. It wasn't just that he was breathtakingly handsome with perfect features. Something about him drew me. Sucked my focus to him and then tugged at my body. As his eyes met mine, I was entrapped. No one had noticed him. He'd been right there, just beyond the light, but only I had perceived. I had to know if he was real. Or maybe I really was crazy. And even when my secret box was blasted wide open, dangers hurled at me like throwing knives, I couldn't stop until I unraveled his true identity. I just had to know.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night! Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
