Aswath Damodaran, distinguished author, Professor of Finance, and David Margolis, Teaching Fellow at the NYU Stern School of Business, has delivered the newest edition of Applied Corporate Finance.. This readable text provides the practical advice students and practitioners need rather than a sole concentration on debate theory, assumptions, or models.

This custom edition is published for Monash University.

This essential companion to the text provides detailed, accuracy-verified, class-tested solutions to every chapter problem. All the solutions, like the problems themselves, were written by the textbook authors. Scrutiny by Timothy Sullivan, Bentley University, and Mark Simonson, Arizona State University, guarantees unparalleled quality. Spreadsheet solutions to select chapter problems and Data Cases are available on the Instructor's Resource CD-ROM.

Parrino/Kidwell, Fundamentals of Corporate Finance offers an innovative integration of conceptual understanding and problem-solving... of intuition and decision-making... of the authors' industry and classroom/research experience... with current real-world examples and online practice. Fundamentals of Corporate Finance helps students develop the intuition and analytical skills necessary to effectively apply financial tools in real-world decision-making situations. Authors Robert Parrino and David Kidwell provide a fully integrated framework for understanding how value creation relates to all aspects of corporate finance; whether it be evaluating an investment opportunity, determining the appropriate financing for a business, or managing working capital. This unique and integrated framework also provides robust coverage of problem solving and decision-making skills. The authors of Fundamentals of Corporate Finance believe that students who understand the intuition underlying the basic concepts of finance are better able to develop the critical judgments necessary to apply financial tools in real-world decision-making situations. This text develops intuitive thinking while simultaneously helping students develop problem solving and computational skills. It then shows students how to apply intuition and analytical skills to decision making while integrating it all with valuation and building shareholder value.

Directed primarily toward MBA/graduate students, this text also provides practical content to current and aspiring industry professionals. Using the unifying valuation framework based on the Law of One Price, top researchers Jonathan Berk and Peter DeMarzo set the new standard for corporate finance textbooks. Corporate Finance blends coverage of time-tested principles and the latest advancements with the practical perspective of the financial manager. With this ideal melding of the core with modern topics, innovation with proven pedagogy, Berk and DeMarzo establish the new canon in finance. If you prefer a more streamlined book, Corporate Finance: The Core is also available by Jonathan Berk and Peter DeMarzo.
