The story is unusually engaging in part because Dibs himself is an extraordinary human being, not only a mistreated innocent, but a genius whose precocious (verbatim) words are amazingly accurate and heartbreakingly expressive of his shifting thoughts and feelings in the various stages of therapy.

About Dibs in Search of Self. The classic of child therapy. Dibs will not talk. He will not play. He has locked himself in a very special prison. And he is alone. This is the true story of how he learned to reach out for the sunshine, for life . . . how he came to the breathless discovery of himself that brought him back to the world of other children.

Account of a deeply disturbed five-year-old's attempt to find his identity and of his emergence from psychotherapy as a whole human being.

Examines the principles and merits of play therapy for children, citing illustrative case histories

In 1947, Virginia Axline introduced professional psychotherapists to a new way of working with children called Nondirective Play Therapy. In 1964, she introduced the rest of the world to “Dibs”. Dibs is silent. Dibs is a mystery to his parents and teachers. Dibs cannot be reached no matter how hard they try. He hides under tables and lashes out at other children. Some think he’s incapable of learning and interacting in a regular classroom. Some think he’s emotionally disturbed. Everyone is desperate to fix him, except for “Miss A”. “Miss A,” as Dibs calls her, believes that Dibs already knows the answers and can show her what he needs if she is patient enough, accepting enough, and observant enough. Dibs’ parents think she’s wasting her time trying to watch him play. He doesn’t play and he doesn’t talk. Dibs’ mother finally agrees to let Miss A try her methods, but she’s not holding her breath. “Miss A” then introduces Dibs and us to her special play room, where children can be just exactly who they truly are. The room is not magical, but the relationship between therapist and child is. In the safety and freedom of this special relationship, we begin to see what Axline meant when she first encouraged therapists to offer children the opportunity to “play out these feelings” and “realize the power within [themselves]”. “A ‘must read’ classic for play therapists!” — Charles E. Schaefer, PhD, RPT-S, Professor Emeritus of Psychology, Fairleigh Dickinson University; Co-Founder and Director Emeritus, The Association for Play Therapy “Dibs: In Search of Self is a timeless account of Axline as play therapist, advocate, and partner in Dibs’ therapeutic journey. I marvel at Axline’s ability to encompass multiple roles while demonstrating integration in all of her interactions; whether in the playroom, conducting classroom observations or working with Dibs’ parents. This is essential reading for play therapists, child development and counseling practitioners.” — Natalya Ann Lindo, PhD, LPC, CCPT-S, CPRT-S, Associate Professor & Counseling Program Coordinator, University of North Texas “There are many books on play therapy theory. There are many books on play therapy techniques. There is only one book that goes beyond theory and technique, getting to the heart of what play therapy is all about. Dibs captures the depth of connection and life-changing impact that play therapy can engender between a child and a therapist.” — Nick Cornett, PhD, LPC, LMFT, RPT, Assistant Professor, John Brown University

"Play Therapy: The Art of the Relationship is a text for graduate-level counseling students in play therapy courses. It provides comprehensive and detailed information for creating therapeutic relationships with children and facilitating the play therapy process. Landreth stresses the importance of understanding the child's world and perspective, allowing play therapists to fully connect with them. Although there is this emphasis on the experiential aspect, the relevant research and theory are still considered. The author presents descriptions of play and the history of play therapy, child and therapist characteristics, play room set-up and materials, working with parents. Guidelines, transcripts, and case examples are provided for governing sensitive issues at every stage of the therapeutic process, from the first meeting to the end of the relationship. This new edition will incorporate the relevant research that has taken place since the publication of the previous, and includes new sections on supervision of play therapists, legal and ethical issues, and multicultural considerations in play therapy"--

Written for use in play therapy and child counseling courses, this extraordinarily practical text provides a detailed examination of basic and advanced play therapy concepts and skills and guidance on when and how to use them. Kottman’s multitheoretical approach and wealth of explicit techniques are also helpful for clinicians who want to gain greater insight into children’s minds and enhance therapeutic communication through the power of play. After a discussion of the basic concepts and logistical aspects of play therapy, Kottman illustrates commonly used play therapy skills and more advanced skills. Introduced in this edition is a new chapter on working with parents and teachers to increase the effectiveness of play therapy. Practice exercises and “Questions to Ponder” throughout the text facilitate the skill-building and self-examination process. *Requests for digital versions from ACA can be found on www.wiley.com. *To purchase print copies, please visit the ACA website *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org

If we are to touch the hearts of hurting children, we must enter their world, the world of play. Play therapy honors children by meeting them in their world. Children say with toys what they have difficulty saying with words. Toys become the play therapist's tools to help unlock the healing process for wounded children. Whether you are a psychologist, a social worker, a family therapist, a pastoral counselor, a group-home worker, or a children's ministry worker, this book will help you build relationships that minister to the souls of hurting children and bring understanding to the confusion of their pain. Through these nurturing relationships, children will be freed to understand and process emotional pain.

Helping therapists hone their skills for working with diverse children and families, this unique volume looks at play therapy through a multicultural lens. Experienced practitioners examine how cultural factors may influence the ways children express themselves through play, the feelings they associate with different activities, and the responses of children and parents to particular interventions. Filled with evocative clinical material, chapters highlight specific issues to consider when working with African American, Latino, Native American, and Asian American children. The book also provides suggestions for setting up a therapeutic playroom that is engaging and welcoming to all.

Current play therapy resources offer details on how to conduct play therapy, but are limited in addressing the challenges that develop when therapists conduct play therapy with real-life clients. Using the Child-Centered Play Therapy Approach, Ray has written the first book to address these complex play therapy subjects. Topics covered include: integrating field knowledge of play, development, and theory into the advanced play therapist’s knowledge base; working with difficult situations, such as limit-setting, aggression, and parents; addressing modern work concerns like measuring progress, data accountability, and treatment planning; differentiating play therapy practice in school and community settings; and addressing complicated skills, such as theme work, group play therapy, and supervision. Ray also includes her Child Centered Play Therapy Treatment Manual, an invaluable tool for any play therapist accountable for evidence-based practice. This manual can also be found on the accompanying CD, along with treatment plan, session summary, and progress-tracking worksheets.
