Good manufacturing practice. This content applies to human and veterinary medicines. Good manufacturing practice (GMP) describes the minimum standard that a medicines manufacturer must meet in their production processes. The European Medicines Agency (EMA) coordinates inspections to verify compliance with these standards and plays a key role in harmonising GMP activities at European Union (EU) level.

GMP chapter6 final

Good manufacturing practice (GMP) is a concept that ensures products are consistently produced and controlled according to quality standards. It is designed to minimize the risks to the patient involved in any pharmaceutical production. GMP constitutes the license to operate in pharmaceutical manufacturing, and is a core condition worldwide.
