Months ago, Drew Colesworth had only meant to play pilot and bring his best friend, Jaime, to an isolated island owned by Jaime's father, Sir Ian Gallagher. It had sounded like fun, but quickly turned into a nightmare. Jaime's father was dead, his terrible experiments exposed, and the island run by the subjects of those experiments. Sir Ian had been a modern day Moreau, funding the cloning of caveman DNA. They'd made many creatures, including handsome, muscled cavemen who looked more like

modern humans than the others. The nightmare had soon turned into an erotic dream. Drew had succumbed to two cavemen and spent nights in the bed of Ash'tar and Mel'em, his body used and abused—to his delight. Drew and Jaime had been allowed to return home—Jaime to deal with the death of his rich, powerful father and Drew simply as Jaime's way home. Never planning to return, he tries to put the island and the cavemen out of his mind, but soon finds he can't. He longs for the feel of Ash'tar and Mel'em beside him once more, but knows it's impossible. They are worlds apart... epochs apart. When Jaime must return to the island, he begs Drew to fly them back. Drew hesitates—only because he

knows he might never leave the island again if he returns.

He and Mary Flat Head also like to collect things they find on their beaches such as shells, strangely shaped wood, and seaweed. Today they found a talking whale called 'Blubber'.

Jaime Gallagher was nothing like the son his father wanted. The two had spent years at odds, but a chance desire to see his father's pet project on the mysterious island Sir Ian Gallagher owned brought Jaime into the middle of chaos. Months before, the creatures Sir Ian had bred on the island had broken

from their prisons and claimed the island for themselves. Jaime is imprisoned, kept captive as the new leaders of the island decide his fate. While awaiting their decision, he chooses to live out a fantasy—one where he would give himself to one of the cavemen on the island. He hadn't planned for one to become two. Na'ear and Tig'un seem to be a package deal, and Jaime won't say no to double the loving. When feelings emerge, and strings threaten to entangle his future, he's rudderless in a sea of emotions. Will he escape Caveman Isle, or will he stay and face a future with two cavemen?

his own personal experiences, blogger Richard Nikoley of Free the Animal (freetheanimal.com) presents a complete guide to losing weight and fat the natural way. After many frustrating years of trying to lose weight by adhering to mainstream nutritional guidelines, Richard made a radical decision to throw the rules out. Instead of eating whole grains and lean meat, he ate what his body had always craved: animal fat, and lots of it—and the extra weight started falling away. In *Free The Animal: How To Lose Weight & Fat On The Paleo Diet*, Richard shares his tips for eating, fasting, and exercising as wild humans did for millenia. Find out how to embrace your primal cravings for nutritionally dense animal fats and fiber-

INSTANT NEW YORK TIMES BESTSELLER Gideon Crew--brilliant scientist, master thief--is living on borrowed time. When his mysterious employer, Eli Glinn, gives him an eyebrow-raising mission, he has no reason to refuse. Gideon's task: steal a page from the priceless Book of Kells, now on display in New York City and protected by unbreakable security. Accomplishing the impossible, Gideon steals the parchment--only to learn that hidden beneath the gorgeously illuminated image is a treasure map dating back to the time of the ancient Greeks. As they ponder the strange map, they realize that the

treasure it leads to is no ordinary fortune. It is something far more precious: an amazing discovery that could perhaps even save Gideon's life. Together with his new partner, Amy, Gideon follows a trail of cryptic clues to an unknown island in a remote corner of the Caribbean Sea. There, off the hostile and desolate Mosquito Coast, the pair realize the extraordinary treasure they are hunting conceals an even greater shock-a revelation so profound that it may benefit the entire human race . . . if Gideon and Amy can survive.

This book will give you a basic understanding of the origin of Okinawa, its emergence onto the world's

stage, and its evolution over the centuries to become the subtropical paradise that we've come to know and love. Having collected so many books and papers about pre-war, wartime and post-war Okinawa, it occurred to me that there is an almost endless array of publications, each offering abundant facts, opinions and uncertainties as to events, dates of events and details of just about every aspect of the principalities, kingdom, province, then finally prefecture of Okinawa-ken including its 27-year interruption under U.S. occupation. There is no way to present a comprehensive volume that covers all aspects of Okinawa's past and present without necessitating the use of a wheelbarrow to move it from one place to the
