Macroeconomic instability: its causes and consequences for ...

From the perspective of supply side economics, supply siders agree with the Keynesians that macroeconomic instability can result from supply side shocks. However, in this regard supply siders at least partly share the classical and monetarist view that it is often the government, not just droughts and oil price hikes, that is to blame for causing the shocks.

What Causes Macroeconomic Instability and is the Economy ...

The article identifies the reasons of negative balance payments and budget deficit: a decrease in production value, negative trade balance, growth of foreign creditor ' s debt, currency instability, an increase in budget spending. The dynamics of income and expenditure within Ukraine budget has been analyzed, and also the destructiveness of existing approaches for the main financial documents has been grounded.

a risk*management mechanism. The paper also explains that macroeconomic instability is both a cause and a reflection of underdevelopment. Whilst macroeconomic instability constraints the long*term growth and thus development, it is also the result of the co* existence of various ' underdeveloped structures ' in the economy. The paper also presents a

Macroeconomic instability in Afghanistan: causes and solutions

Macroeconomic stability acts as a buffer against currency and interest fluctuations in the global market. It is a necessary, but insufficient requirement for growth. 1 Exposure to currency fluctuations, large debt burdens, and unmanaged inflation can cause economic crises and collapse in GDP.

Macroeconomic Stability - Reut Institute

3. Causes of Inflation: Inflation is mainly caused by excess demand/ or decline in aggregate supply or output. Former leads to a rightward shift of the aggregate demand curve while the latter causes aggregate supply curve to shift leftward. Former is called demand-pull inflation (DPI), and the latter is called cost-push inflation (CPI).
