Mohammad Al Ghazoli was raised a Muslim. But the more he read the ancient literature of Islam, the more convinced he became that Allah could not be the True God. And the more he studied the life of Muhammad, the more obvious it became that Muhammad was not God's prophet. Then one day, someone placed a Bible in his hands and said, "Read." Soon Ghazoli had found the True God, and forgiveness through His Son. This book isn't just Ghazoli's testimony. It is much more than that. It contains the facts from the literature of Islam that shows why Allah can't possibly be the True God. It gives proof from Islam itself that whenever Muhammad wanted more wives, or riches, or when he had a problem, Gabriel was always standing by, ready to give another verse to exempt Muhammad from the law and morality. How convenient! Many of the stories in the book will be unfamiliar to the Western reader, but very familiar to Muslims. It is this inside view of things that makes the book so powerful as a witnessing tool for Muslims. Over and over again, Ghazoli asks, Is this the behavior of a prophet who was sent by God? What kind of god would send a prophet like that? The arguments contained in this book will give you powerful evidence you can show to Muslims you may try to witness to. Because it is written by a respected Arab writer, who was an advisor to the Arab league and even to Libyan ruler Qhadaffi, you can give the book to a Muslim and tell him, "Read." Learn about: The 220 contradictions in the Quran. Verses which reverse and replace prior verses. Did Allah make a mistake? The verses used to justify terrorism. Even the Quran admits Jesus was crucified! Then it denies it. Muhammad's 23 marriages, including one to a little girl.

When he enters the "Best of the Best" tournament, Red Dragon must take on Steel Seraph, a legendary swordsman, and meanwhile, Tiger discovers what may be his long-lost grandfather lying in a forest.

With House Of Glass comes the final chapter of Pramoedya's epic quartet, set in the Dutch East Indies at the turn of the century. A novel of heroism, passion, and betrayal, it provides a spectacular conclusion to a series hailed as one of the great works of modern literature. At the start of House of Glass, Minke, writer and leader of the dissident movement, is now imprisoned—and the narrative has switched to Pangemanann, a former policeman, who has the task of spying and reporting on those who continue the struggle for independence. But the hunter is becoming the hunted. Pangemanann is a victim of his own conscience and has come to admire his adversaries. He must decide whether the law is to safeguard the rights of the people or to control the people. He fears the loss of his position, his family, and his self-respect. At last Pangemanann sees that his true opponents are not Minke and his followers, but rather the dynamism and energy of a society awakened.

Most people ' s perception of comicbooks is one of superheroes like Spider-Man and Batman. But it belies an art form that is not unique to the UK and USA. Practically every country in the world has its own thriving comicbook industry. In some countries like France, they are a highly regarded form of expression – The Ninth Art. While in Japan, comics are so integral to its culture and society that it would be impossible to imagine the country without them. The cultural impact of comics cannot be underestimated. Did you know that sales of Mexico ' s leading comic outstrip those of the country ' s bestselling daily newspaper by six to one? Or that comicbooks are often used to convey a very serious message (only recently a comic featuring Superman was distributed to 500,000 children in Kosovo to teach them how to spot and avoid land mines)? Arranged geographically, this book assesses the medium in every major area of the world, discussing the history of the genre, the comics and characters, the publishers, creators and artists. Regions covered include the UK and United States, central Europe (France, Belgium, Germany, Spain, Italy), Eastern Europe, Scandinavia, Japan and Asia, Africa, India, Central and South America, and Australasia. Including key feature spreads and a wealth of colour images – many of them unseen – this book is the first of its kind to provide a global picture of an often-underrated art form.
