Jo and Ade spent over three fantastic years crusing the Big U in a 43' Selene Trawler, Wandering Star. Besides having fun, their vision was to demonstrate that you don't have to cross oceans and go around the world to have the incredible adventure of a lifetime.

Negotiation Excellence: Successful Deal Making is written by leading negotiation experts from top-rated universities in the US and in Asia and its objective is to introduce readers to the theory and best practices of effective negotiation. The book includes chapters ranging from: preparing and planning for successful negotiations; building relationships and establishing trust between negotiators; negotiating creatively to create mutual value and win-win situations; understanding and dealing with negotiators from different cultures; to managing ethical dilemmas. In addition to emphasizing the link between theory and practice, the book includes deal examples such as: Renault-Nissan alliance; mega-merger between Arcelor and Mittal Steel; Kraft Foods' acquisition of Cadbury PLC, Walt Disney Company's negotiation with the Hong Kong government; and Komatsu, a Japanese firm's negotiation with Dresser, an American firm. Following the success of the first edition, the second edition re-emphasizes the spirit of linking theory to practice with two new chapters on emotions in negotiation and the Indian negotiation style.

The eyes initiate and control most motor behavior. Working with the relationship of the eyes to the rest of the body can be a powerful means to improve physical organization and functioning. Jack Heggie combines the theory and practice of "Awareness Through Movement"(r) with the vision improvement of Dr. William Bates and has developed 13 "Awareness Through Movement" vision exercises which reduce eye strain and improve posture, flexibility and visual acuity.
