A survey of the history of the Habsburgs, examining their political evolution from the Middle Ages to the twentieth century.

The first part of a two-volume history of the Habsburg Empire from its medieval origins to its dismemberment in the First World War. This important volume (which is self-contained) meets a long-felt need for a systematic survey in English of the Habsburgs and their lands in the late medieval and early modern periods. It is primarily concerned with the Habsburg territories in central and northern Europe, but the history of the Spanish Habsburgs in Spain and the Netherlands is also covered. The book, like the Habsburgs themselves, deals with an immense range of lands and peoples: clear, balanced, and authoritative, it is a remarkable feat of synthesis and exposition.

The definitive history of the dynasty that dominated Europe for centuries In *The Habsburgs*, Martyn Rady tells the epic story of a dynasty and the world they built -- and then lost -- over nearly a millennium. From modest origins, the Habsburgs gained control of the Holy Roman Empire in the fifteenth century. Then, in just a few decades, their possessions rapidly expanded to take in a large part of Europe, stretching from Hungary to Spain, and parts of the New World and the Far East. The Habsburgs continued to dominate Central Europe through the First World War. Historians often depict the Habsburgs as leaders of a ramshackle empire. But Rady reveals their enduring power, driven by the belief that they were destined to rule the world as defenders of the Roman Catholic Church, guarantors of peace, and patrons of learning. *The Habsburgs* is the definitive history of a remarkable dynasty that forever changed Europe and the world.

This panoramic reappraisal shows why the Habsburg Empire mattered for so long to so many Central Europeans across divides of language, religion, and region. Pieter Judson shows that creative government--and intractable problems the far-flung empire could not solve--left an enduring imprint on successor states. Its lessons are no less important today.

"A feat of both scholarship and storytelling" (Wall Street Journal)--the definitive history of a powerful family dynasty who dominated Europe for centuries. In *The Habsburgs*, Martyn Rady tells the epic story of a dynasty and the world it built--and then lost--over nearly a millennium. From modest origins, the Habsburgs gained control of the Holy Roman Empire in the fifteenth century. Then, in a few decades, their possessions rapidly expanded to take in a large part of Europe, stretching from Hungary to Spain, and parts of the New World and the Far East. The Habsburgs dominated Central Europe through the First World War. Historians often depict the Habsburgs as leaders of a ramshackle empire. But Rady reveals their enduring power, driven by the belief that they were destined to rule the world as defenders of the Roman Catholic Church, guarantors of peace, and patrons of learning. This is the remarkable history of a dynasty that forever changed Europe and the world.

A political, cultural, and socioeconomic history of the Habsburg empire, discussing the rise of Habsburg power, its subsequent status and action as a great power, and its dissolution.

S. 262-269: Taylor, A. J. P.: The political and ethnographical structure of the Habsburg monarchy.

The Habsburgs are the most famous dynasty in continental Europe. From the thirteenth to the twentieth centuries, they ruled much of Central Europe, and for two centuries were also rulers of Spain. Through the Spanish connection, they acquired lands around the Mediterranean and a chunk of the New World, spreading eastwards to include the Philippines. Reaching from South-East Asia to what is now Ukraine, the Habsburg Empire was truly global. In this Very Short Introduction Martin Rady looks at the history of the Habsburgs, from their tenth-century origins in Switzerland, to the dissolution of the Habsburg Empire in 1918. He introduces the pantheon of Habsburg rulers, which included adventurers, lunatics, and at least one monarch who was so malformed that his true portrait could never be exhibited. He also discusses the lands and kingdoms that made up the Habsburg Empire, and the decisive moments that shaped their history. Dynasty, Europe, global power, and the idea of the multi-national state all converge on the history of the Habsburg Empire. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

An historian's account of the cultural evolution, political problems, and socioeconomic development of the multinational Habsburg Empire
